We only just begun
We knew this day would come
The end of our fun
Now where on the run
So darling take my hand
Kiss this land goodbye
Because people like us lose
Cause we don't follow rules
Oh we only just begun
We knew this day would come
The end of our fun
Nowhere on the run
So darling share a kiss
Darling Feel my touch
Hold the words I'll miss
That I love to hear so much
Until we find that place
Having our own space
Cause we only just begun
We only just begun.
