Be my valentine  
My only valentine  
Be my valentine tonight.  
The candles are lit  
The music is right  
And I'm just waiting  
For you tonight.  
Be mine valentine  
My only valentine  
Be my valentine tonight.  
I brought you a chocolate heart  
And roses to help with the part  
Not a bad way I thought to start.  
oh be my valentine  
my only valentine  
be my valentine to night.  
now we finish our wine  
heading upstairs  
and where wasting no time  
just want to get there  
Oh be my valentine  
My only valentine  
Be mine valentine tonight.  
Be my valentine  
My only valentine  
Be my valentine tonight.
