"Burn"

Visit "[Burn](#)" on MotoLyrics.com

Honey did you say your prayers tonight
And did you think he heard you
And will he make it right for us
But either way darling
Where leaving in the morning light
Where gonna catch that grey hound bus
Cause if we stay here darling
Will only get burn
Now where going to the coast
Somewhere out west
We will take along the holy ghost
He is the only faith we have left
Because if we stay here darling
Where only get burn
Now darling laid real close
Because the night getting cold
Will sleep in this old beat up old chevy
And don't worry darling
I got my daddy's gun
In case some fool get in our way
Because if we stay here darling
Where only get burn
Now darling don't you cry
Just dry your eyes
I found me a job on the edge of town
And this guy I met has a home for us
And all I have to do is drop off this package
So give me a kiss share a hug
And I will be back tonight
And in the morning
I promise you I'll make it right
But for now close your eyes
And dream for me that where walking
In the promise land
Hand in hand with our little girl
The only thing that's right in this cruel world,
And remember darling if we would of stay there
We would of only gotten burn
