Now darling shhhhhh
Don't say a word
Will sleep by the water
And cuddle close tight
Until the morning light.
Now I know darling
This isn't any fun
We both didn't think
This day would come
But there nobody we can trust
To gives us money for that bus.
So hold your tears, relax your fears
And say goodnight until the morning light
But before you do
Don't forget to say your prayers
Asking him to make it right
Make it right for us.
Now darling shhhhhh
And don't a word accept goodnight
Until the morning light.
