"I Walk These Streets"

I walk these streets alone
Not afraid of who I've meet
It's my home away from home
But still I don't speak much
Just enough to stay in touch
Oh I walk these streets tonight
With my shadow under the street light
So I'm not on my own.
Now I smoke my last cigarette
To forget all my I'm regets
But still needing a place
To sleep the day away
Till the night comes again
Oh I walk these streets alone
Not afraid of who I'll meet
It's my home away from home
And not saying to much
Just enough to stay in touch
Oh I walk these streets at night
With my shadow under the street light
So I'm not on my own, oh I walk these streets.
