I'm stuck inside this cell  
Never getting out  
That much I can tell  
Because the warden told me so  
As the guards come and go  
While I pace in this small space  
As I try to figure out away out of this place.  
Oh I'm stuck inside this cell  
And I'm never getting out  
That much I can tell  
As I think of some ideals  
Without them knowing  
That one day I'll be going.  
Oh I'm stuck inside this cell  
That much I can tell  
But I'm gonna make some tools  
To my escape  
But I also got to stay cool  
So I don't give it away like a damn fool.  
Oh I'm stuck inside this cell  
I'm never getting out  
That much I can tell  
But maybe, just maybe  
That day will come.
