Oh we took a ride
In your daddy's Cadillac
Sharing blood on blood
Where never going back
Where gonna follow that dream
The one that asked no questions
So we can walk in the sun
Instead two fools on the run
Oh we took a ride
In your daddy's cadillac
Sharing blood on blood
Where never going back
So honey hit the gas
Turn the radio up loud
And let's burn these miles
And we will do it in our own style
Oh we took a ride
In your daddy's cadillac
Sharing blood on blood
Where never going back
Now darling park the car
And take my hand
Together will
Case these promise land
Because I know of a place
That asks no questions
And prayers get answer
And nobody get in your face
Or crowd your space
Oh we took a ride in your daddy's cadillac
Sharing blood on blood where never going back
Now darling close your eyes
And sleep tight
Because when tomorrow
Comes darling
Will leave in the first light
Oh we took a ride.
