I been watchin' you a long time
Trying to figure out where and when
We been moving down that same line
The time is now maybe we could get skin to skin

Don't know when this chance might come again
Good times got a way of comin' to an end
Don't know when this chance might come again
Good times got a way of slippin' a-way
Let's be friends, baby let's be friends

I know we're different you and me
Get a diffente way of walkin'
The time has come te let the past be history
Yeah, if we could just start talkin'

Don't know when this chance might come again
Good times got a way of comin' to an end
Don't know when this chance might come again
Good times got a way of slippin' a-way
Let's be friends, baby let's be friends

Do, do do doo do do do doo...

There's a lot of talk going 'round now
Let'em talk you know you're the only one
There's a lot of walls need tearing down
Together we could take them down one by one
