"Pep Talk"

Visit "[Pep Talk](#)" on MotoLyrics.com

You tell me how hard
You think you're workin'
Say your nine-to-five done got you down
Grab yourself and come on down to my place
We gonna show you how to fool around

It's, it's okay
You need a pep talk

I can't tell you how to run you life girl
All I know is life is passing by
Let's get goin' this ain't no rehearsal
Don't be scared to crack a little smile

You're alright, you're okay
You need a pep talk

(Bridge)
I wanna tell you something
Any day you waste you won't get back
I had to learn the hard way
But little pep talk put me back on track

You got a good thing, you don't even know it
All work, no play makes Jack a little blue
But if it don't kill you, it just makes you stronger
Let's take sometimes we'll concentrate on you

You're alright, you're okay
You need a pep talk
