Don't need anybody messin with you
I want you just the way you are
Don't want anything that you can give me
Keep your money and your car

You bring me your joy
And your love it makes me sing
It's got me going
It feels like a dream
(Feels like a dream)
My heart is on fire and filled with such desire
Now I promise to be where you are

I need somebody
I want a lover and a good love too
I want somebody that's gonna turn me on the
way you do
(The way you do oh)

So good doin what you doin baby
Got me cryin out for more
So good screamin and shoutin baby
When you take me on the floor

You bring me your joy
And your love it makes me sing
It's got me going
It feels like a dream
(Feels like a dream)
My heart is on fire and filled with such desire
Now I promise to be where you are

I need somebody
I want a lover and a good love too
I want somebody that's gonna turn me on the
way you do
I need somebody
(I need somebody)
I want a lover and a good love too
(Good love too)
I want somebody
(I want somebody)

That's gonna turn me on the way you do

Oh unbelievable
That's what I'm looking for
So incredible
Look no more
Now you got me going

I need somebody
Lover and a good love too
Really want somebody
Turn me on the way you do
I need somebody
Lover and a good love too
Really want somebody
Turn me on the way you do

Need somebody
Oh you know i do
Oh oh oh
Turn me on the way you do
(Turn me on)
Yeah

I need somebody
I want a lover and a good love too
(Lover and a good love too)
I want somebody that's gonna turn me on the
way you do
(Yeah)
I need somebody
(I need somebody really need somebody)
I want a lover and a good love too
Oh baby

(I need somebody really want somebody)
That's gonna turn me on the way you do
(The way you do oh)
