Other side of love
Other side of love
There was another
She took your trust and threw it away
Leaving you lonely for too long, so long
I know your've been broken hearted
It cut so deep
You never thought the hurting would end
Just try to foget her
Just be strong, hold on
I'm here(I'm here)
For you(for you)
Gonna make you believe
Yeah
Chorus:
This is the other side of love
Babe I'll give you everything you've been dreaming of
After all you've done for me
No one told you
There was another side of love
God must have delivered a message from above
The day you came to me
We saw the other side of love
Picture a summer day
A gentle breeze to blow all your troubles away
A picture os happiness that will stay, always(always)
I'm here(I'm here)
For you(for you)
And always all be
Yeah
Chorus
I happen to know the way you feel
It's happened to me so many times
But baby believe in me
I swear this is the other side
Other, otherside, other
Chorus
