TOBACCO SPIT

Reel this spool of string
Strap the life jacket as tight as can be
Oh, we can fish and fry
Wave your last goodbye - could you see

There's too much tobacco spit on these strings

So, you wanna sing next to me
You look tall on woody seats
Oh, we can fish and fry
Wave your last goodbye - could you see

There's too much tobacco spit on these strings

So you wanna walk on the moon
You'll be a hero back at school
Wave your last goodbye - could you see

There's too much tobacco spit on these strings
