THE SONG TITLE IS ACTUALLY FEEL RIGHT

What's that look on your face?
So miserable, uncomfortable
Why you looking so sad
I thought you'd get in to it

Relax and go with the flow
Should take it slow, you never know
Are you feeling alone
Maybe you should go

You seem so serious
That won't get you nowhere
Take a breath and count with me
Come on now, one, two, three

Because you're uptight
Everything is gonna be alright(alright)
Uptight, why don't you just let yourself feel right(oh
yeah)
You know you're uptight, everything is gonna be
alright(alright)
Uptight, why don't you just let yourself feel right(uh
huh)

Wipe that look of your face
So confused, you're not amused
Why you looking so sad
Thought that you'd get with it
Come on now, get with it

What's running through your head
Running through your mind, boy
Take a breath and count with me
Come on now, one, two, three

Because you're uptight
Everything is gonna to be alright(alright)
You know you're uptight, why don't you just let yourself
feel right(alright)
You know you're uptight, everything is gonna to be

alright(oh yeah)
Uptight, why don't you just let yourself feel right(just let
yourself,yourself)

Take a deep breath don't get uptight, unwind have fun
with me
Take a deep breath it will be alright, relax and you'll be
free
Take a deep breath don't get uptight, unwind have fun
with me
Take a deep breath it will be alright, relax and you'll be
free

What's running through your head
What's running through your mind, boy
Take a breathe and count with me
Come on now, one, two, three(yeah)

Uptight(everything is gonna to be alright)

Uptight
Everything is gonna to be alright(its gonna be alright
now,baby)
Uptight(yeah), why don't you just let yourself feel right
You know you're uptight, everything is gonna to be
alright(alright)
Beacause you're uptight, why don't you just let yourself
feel right(uh huh)

Uptight
