"Stay With Me"

Living our world...

And my heart is like the wheel

If you keep...

Running the blue

Take my hand...

And give me the light

Hold my heart...

That's burning like a fire

Stay with me...

And here we go again

My love...

How wrong?

Stay with me...

Your love will find me the way

Stay with me...

Your love will find me the way

You...

Dream about to stop

Please...

Stay again with me
