The costumes, the scenery that make up the props  
The headaches, the heartaches, the packing, the flops  
The audience that lifts you when you're down

The sheriff who escorts you out of town  
There's no business like show business  
There's no business I know  
Knowing that you get that happy feeling  
Everything about it is appealing  
When you're taking that extra bow  
Everything the traffic will allow

There's no business like show business  
Everything about it is appealing  
There's no business I know  
Everything the traffic will allow  
Knowing that you get that happy feeling  
When you're taking that extra bow

Say hello say goodbye  
Say hello say goodbye  
Good to see you're glad to rock and roll you  
You're the ones that really stole the show yeah  
Split your spats as you're gone thru the band

Sorry but it's time to end this show yeah  
Tip your hat, to the boys in the band  
It's good to move, to groove to you tonight
