Well, maybe you don't need complications  
But this is a simple situation  
There's a chance that this could be the one - yeah

Well you may be wrong or you may be right, but  
This ain't something you wanna fight  
Let your feelings go, cuz you really need to know

What does it do to your heart  
When she hangs on every word you say  
And she's casting every single smile away  
What does it do to your soul  
When you know that everything she needs  
Is simply bein' around the air you breathe  
What does it do to your heart

Oh looking from the outside and i  
See there's something deep within  
You can't deny your lives are worlds apart

Yeah sometimes life can be confusing  
I tell ya this ain't no illusion  
Let your feelings go, if ya really wanna know
