I would walk a million miles to see ya
I'd drive through the pouring rain
I'd dive into your deepest ocean
To still have you in my arms again

I'll be there when you're feeling lonely
I'll be there 'til the end of time
I'll stand beside you baby if you break down
Ain't no mountain that I won't climb, yeah

Hey little girl, come on let's
Knock on love, come into my little world
'Cause if I touch you there, I'll touch you here
And all your troubles will disappear, little girl
Come on let's, knock on love, all night long

I would fly through any kind of weather
I would swim across the stormy seas
I'd rode down any river just to get to you
I'd do anything that you please

Hey little girl, come on let's
Knock on love, come into my little world
'Cause if I touch you there, it'll touch you here
And all your troubles will disappear, little girl
Come on let's, knock on love, all night long

I would do anything
Anything that gets you through the night
I would give everything
To have you the rest of my life

Hey little girl, come on let's
Knock on love, come into my little world
'Cause if I touch you there, it'll touch you here
And all your troubles will disappear, little girl, little girl
Come on let's, knock on love, all night long
