"This Is Where I Belong"

I hear the wind across the plain
A sound so strong that calls my name
It's wild like the river, it's warm like the sun
Yeah it's here, this is where I belong

Under the starry skies
Where eagles have flown
This place is paradise
It's the place I call home

(The moon on the mountains)
(The whisper through the trees)
(The waves on the water)
Let nothing come between this and me

'Cause everything I want
Is everything that's here
And when when we're all together
There's nothing to fear

And wherever I wander
The one thing I've learned here
It's to here
I will always, always return
