Visit "[That mother fucker](#)" on MotoLyrics.com

She says if you really like it why don't you call me back
If you really like it why won't you come on back

You can ride for free and you don't got to worry about
me
I cry alone and I whisper when I speak

I say I don't wanna be I don't wanna be that ? mother
fucker
I don't wanna be I don't wanna be that ? mother fucker
Who can make you so blue you become mean
When the devil needs help why does he always call me

She says lets drink a dr. pepper and play Roberta Flack
Lets drink a dr. pepper and listen to Roberta Flack

I'll pretend to be happy if you pretend to be glad
I forget how I got here I just know I wanna get back

I say I don't wanna be I don't wanna be that ? mother
fucker
I don't wanna be I don't wanna be that ? mother fucker
Who can make you so blue you become mean
When the devil needs help why does he always call me

She says be careful what you give me you might not
get it back
What ever you give me i might not give back

I can forgive but i will never forget
Blame is better to give than to get
