I look cute at the end of your leash-your adorable beast  
As I salivate on your shoes

Obedient and true-loyal through and through  
A fuzzy reflection of you

If you are hurt I will lick it  
If you feed me I won't forget it  
If I mess up just rub my nose in it

You let me out to sniff around  
Do my business and stretch out  
And I always come running for you

Chorus

I look cute at the end of your leash-your adorable beast  
Ha ha ha ha ha ha ha

I was lost when you found me-half crazy and mangy  
But you cleaned me up and I am here for good

But if I run away will you miss me  
Search through the streets for me  
Because I will be looking for you

Bridge

And if I growl well I don't mean it  
And if I bark just give me a kick  
And when I whine-pay no mind  
I'm just missin' you

I'll chase your enemies away  
Lick your momma on the face  
I'll only wag my tail when I'm with you

I will follow you around to every part of town  
You can show me off like a brand new tatoo
