Airstream trailer on the back of my Ford
Rand McNally map on my dashboard
A town was just a place to gas up and leave
Til i saw her there looking back at me
She took my money and stole my heart
And ever since then that trailer's been parked
She made a rock from a rolling stone
She took the mobile out of mobile home

[Chorus]

It's up on blocks with a wrap around porch
Pink flamingos and a tiki torch
I'm living a life I've never known
She took the mobile out of mobile home
She took the mobile out of mobile home

I got a steady job down at triple a
Go to church on Sunday where we both got saved
Traded in my truck for a mini van
I haul around the kids, I'm a family man
Barbecuing with the neighborhood
I owe it all to my baby making life so good
This ramblin' man don't need to roam
She took the mobile out of mobile home

[Chorus]

It's up on blocks with a wrap around porch
Pink flamingos and a tiki torch
I'm living a life I've never known
She took the mobile out of mobile home
She took the mobile out of mobile home

I'm planting seeds I've never sown
She took the mobile out of mobile home
She took the mobile out of mobile home
