Hey hey hey hey

Well I wanna take you down where the rivers run
Down to my home in the city
Workin' like a dog, 'til we have some fun
If you wanna go, sing with me

Hey hey hey hey

Well I'm proud to be a patriot of my hometown
Lovin' every dang thing about it
Baseball, apple pie and the country sound
If you love it too, then shout it

Hey hey hey hey

'Cause when we get together
After workin' all day long
There just ain't nothin' better
When they play our favorite song
Oh, now everybody now singin',

Hey (hey) What you wanna say?
It's our pride and our passion that'll take us all the way
Hey (hey) What you gonna do?
It's the pride and the passion
It's the Red, White and the Blue
We've talked the talk, now let's kick a little action
It's the pride and the passion
Hey hey hey hey
It's the pride and the passion
Hey hey hey hey

Well I'm born to be a brother of my neighborhood
Don't you know we always bring it
Celebratin' life cause you know it's good
Come on let me hear you sing it

Hey hey hey hey

Cause when we come to party
Everybody wants to play

Let's get this whole thing started
We can shout all night and day
Singin'

Hey (hey) What you wanna say?
It's our pride and our passion that'll take us all the way
Hey (hey) What you gonna do?
It's the pride and the passion
It's the Red, White and the Blue
We've talked the talk, now let's kick a little action
It's the pride and the passion

Oh, when we get together
After workin' all day long
There just ain't nothin' better
When they play our favorite song

Hey (hey) What you wanna say?
It's our pride and our passion that'll take us all the way
Hey (hey) What you gonna do?
It's the pride and the passion
It's the Red, White and the Blue
We've talked the talk, now let's kick a little action

We've walked the walk
Now it's time for satisfaction
The pride and the passion
Hey hey hey hey
It's the pride and the passion
Hey hey hey hey
