Come home
Let me tell you how
I've missed you so
I didn't want you to go
'Cause I love you so

Come on home or you'll find
You'll miss the love we shared
There's none will ever compare
Darling, please come home

Funny what a quarrel can do
After so many thrills
It has wrecked in a moment
What has taken us
A lifetime to build

Darling, please come home
I'll be happy, dear
If you decide to give
Love another try
Won't you please come home

Funny what a quarrel can do
After so many thrills, oh, yes
It has wrecked in a moment
What has taken us
A lifetime to build

Please, come on home
I'll be happy, dear
If you decide to give
Love another try
Won't you please come on home
(Please, come home)
