Knock you out down to the floor
DJs, gonna head it get ready for more
Knock you out, out of control
This beat is gonna take you to a T.K.O
Everybody battle up
I feel the base, don't you stop
This party's gonna make you sweat
Everybody place your bets
You won't be saved by the bell
This place is hotter than hell
Knock you out down to the floor
DJs, gonna head it get ready for more
Knock you out, out of control
This beat is gonna take you to a T.K.O
Get set, ready to go
We're gonna rumble, to the boulevards
Can take your corners
Can check the score
You won't be saved by the bell
We're you will live to tell
Knock you out down to the floor
DJs, gonna head it get ready for more
Knock you out, out of control
This beat is gonna take you to a T.K.O
You won't be saved by the bell (T.K.O)
This place is hotter than hell
We're you will live to tell
Knock you out down to the floor
DJs, gonna head it get ready for more
Knock you out, out of control
This beat is gonna take you to a T.K.O
Repeat
