Well, well, well  
Whoa, whoa

Hit and run  
You were just out for fun  
I thought I was the only one  
Who turned you on  
But I was wrong

Hit and run  
Girl, you played your game so well  
You really made it hard to tell  
That all you were was  
A one night stand

Yeah, yeah, yeah

The stage was set the day we met  
I thought I had the leading part  
But you lied to me and led me to believe  
That no one else could steal your heart

But you said you would love me good  
And I thought that you were here to stay  
You held me tight, it felt so right  
Then you up and ran away

Oh, hit and run  
You were just having fun  
Girl, I thought I was the only one  
Who turned you on  
But I was wrong

Hit and run  
Girl, you played your game so well  
You really made it hard to tell  
That all you were was  
A one night stand

Well, well, well  
Woo, woo, woo, woo  
Yeah

I bet you know I wanted you so  
But love was never on your mind  
No chance for me 'cause you had to leave  
For a love of a different kind

Girl, you lied to me, led me to believe  
You were gonna be here to stay  
I never understood, never thought you would  
Turn your back and run away

Oh, hit and run  
Girl, you were just out for fun  
I thought I was the only one  
Who turned you on  
But I was wrong

Hit and run  
Girl, you played your game so well  
Girl, you really made it hard to tell, oh yeah  
That all you were was a one night stand

Hey, hey  
Well  
Woo, woo, woo

Hit and run, just for fun, ooh  
Hit and run, just for fun on me  
Hit and run, just for fun
