Bubbles - Free
[From Bless album]
[Kan vara felstavat, submitted by wewspoke]

I try to understand but it's complicated
Try to look at things from the other side
Broke my heart and took my love forget it
It's taking me wild for me to find myself

Now I'm free. Oh yeah
I'm free. Oh oh
Free to go and party and dance all night
Free to be myself and that's alright
Free. Oh yeah

Someone told the DJ no slow music
I turned up the bass so I can jump to that beat
Don't tell me about you're sorry I cry if I want to
Don't you come back, don't you ever step in my way

Now I'm free. Oh yeah
I'm free. Oh oh
Free to go and party and dance all night
Free to be myself and that's alright
Free. Oh yeah

I try to understand but it's complicated
Try to look at things from the other side
Broke my heart and took my love forget it
It's taking me wild for me to find myself

Middle of the night and it feels so right
Middle of the night gonna make it right
Middle of the night and it feels so right
Middle of the night gonna make it right

Free to go and party and dance all night
Free to be myself and that's alright
Free
