(Alla) Here we come, here we come. Here we come.

(Patricia) Wanna be friend of mine?
Get yourself back of line.
Stop waist in time. Be cooler. Control your destiny.
You can be what you wanna be. Time is now.
Get on your way.

(Alla, refr ng) Here we come.
Looking like look a-like and feeling the exciting, come.
Take you to the top, we never gonna stop the core.
Watch out, cheeking out, baby. Here we come.

(Yenny) Can feel that you're alive. Get ready to ??.
Getting make up your mind. Don't forget it.
Life's a mystery. It's there for all the see.
We want it so hard there to believe it.
