The name of love

I know, I'm gonna find my valentine
I know, it's gonna get so much better, sooner or later
Everybody's talking 'bout the birds and bees
Soon as it hits, you're growing weak at the knees

Over and over, over my shoulder
Wanna tell the world about it

It's all in the name of love
It's all in the name of love
There's no way to fight it
You know you can't hide it
Your heart keeps getting so excited
Name of love, it's all in the name of love
There's no doubt about it
You know when you've found it
You wanna tell the world about it

Baby, I think about you all the time
Oh maybe, I go between laughing, crying
Don't say you're lying
Somebody tell me what it's all about
I'm head over heels I wanna scream and shout
Over and over, over my shoulder
Wanna tell the world about it

It's all in the name of love
It's all in the name of love
There's no way to fight it
You know you can't hide it
Your heart keeps getting so excited
Name of love, it's all in the name of love
There's no doubt about it
You know when you've found it
You wanna tell the world about it

Even if your love's deep hearted
Even if you're broken hearted
Life goes on, that's what they say

It's all in the name of love
It's all in the name of love
There's no way to fight it
You know you can't hide it
Your heart keeps getting so excited
Name of love, it's all in the name of love
There's no doubt about it
You know when you've found it
You wanna tell the world about it

Now that you've found it
(Now that you've found it)
(Now that you've found it)

The name of love
The name of love
The name of love

The name of love
