I'm a typical male

But I spell it all out

You can't deny me that

Because what you see

Is what you get

There isn't a single catch

You're a smooth operator

A smooth operator

Sade's got nothing on you

A lust instigator

And a fashion innovator

So much to like in you

Chorus

And when I look at you

All I think about is sex

And when I talk to you

I think about it more

I think about it more

(You make me think about - all I ever I think about)

Genetically programmed

There's no way out

It's all in my DNA
And what you've got
Is what I want
And every man would feel the same
Your love may be king
Your love may be queen
But we're not in a monarchy
And thanks to civilisation
Procreation's recreation
We're more than just the birds and bees
Chorus x2
Mid 8
I'm just conveying
What most songs are saying
Only using
Less ornate English
Chorus Outro
