My life is extraordinary bare,i fought the fear and  
chased the pain,  
My life doesn't need to be explained,  
I chose to walk this life as one.  
Sometimes as i live upon my island,  
Cut off from emotion and it's pain,  
That's when i am tempted by the waters,the waters that  
can take me far away  
(chorus)  
So i'll just keep on walking down this open road,  
Hoping someone somewhere needs me  
So i'll just keep on walking down this open road,  
Talking to the man who knows me,  
The man is me  
My life was once full of people's faces,  
Brought to me by love which isn't strange.  
My life had the goodness of blue waters,  
A day's a day for all i used to say,  
Sometimes i can sit and cry my heart out,  
Drowning in my autocratic ways  
That's when i am tempted by the waters,the waters that  
can take me far away  
My life is now full of people's faces,  
Within the light of change i pulled away,  
My life shows that "no man is an island"  
I've exchanged the piece of life i cut away  
Now you won't see me walking down that open road,  
I've found someone who needs me,  
No you won't see me walking down that open road,  
I've found at last the man who knows me,  
Yes, he knows me,  
The man was me.
