Such a fine line between friends and lovers  
Sometimes the difference is hard to tell  
With one kiss we would discover  
Love can be heaven love can be hell  
From an innocent kiss a spark ignited  
An internal flame won't let us go no, no, no, no,  
Now each breath fuels the fire  
A burning affair that's out of control

CHORUS:

Just one more kiss one more night  
Can't stop this feeling inside  
Just one more kiss one more night  
Can't stop this burning desire  
Hearts on fire gonna risk it all  
Bound by passion and desire  
Throwing caution to the wind  
Crossing the line from friends to lovers  
Time and time and time again  
We sneak away into the night  
Sharing a secret only two can know no, no, no  
Now each breath fuels the fire  
A burning affair that's out of control

CHORUS:

Just one more kiss one more night  
Can't stop this feeling inside  
Just one more kiss one more night  
Can't stop this burning desire  
Hearts on fire gonna risk it all
