Her taste will seduce you and make you a slave
I've seen her send bigger men than you to the grave
You'll need lots of money just like you've been told
Cause man she's more expensive than diamonds or
gold
Hot sweats cold chills and with drawl pains
Gotta have her love flowing through your vein's
Can't live with her can't live without
One day at a time your friends all cry out, I say

Chorus:

What about the night
What about the night
Who's gonna get you through the night
When she whispers your name whispers your name
Her kiss will reduce you to dust and bones
You want to scream so paranoid and alone
Can't eat or sleep your loosing control
She waits in the shadows to steel your soul
Hot sweats cold chills and with drawl pains
Gotta have her love flowing through your veins
Can't live with her can't live without
One day at a time your friends cry out, I say

Chorus:

What about the night
What about the night
Who's gonna get you through the night
When she whispers your name whispers your name
