Sing me a song

Cause I don't want to hear my life go by

Sing me a song

And let the melody dance through our hearts tonight

And if you face it you'll find that the love we can make  
is so strong

Forget what they're saying,

Stay true to yourself and move on

I see the city at night

I see the street life, the restaurants

The passerbys

Somebody's home

To the shower they go,

Clean the stress away

Is anyone out there to the heart-break station

I'm gone

Forget what they're saying,

Stay true to yourself and move on

(Chorus)

I don't wanna live my life today

I'm all outta love and I'm tired of changing

I hope you can help pass the time away  
Is anyone out there to the heart-break station  
I'm gone  
I fell outta love this time again  
Can't stand one more fight  
I'm too tired and crazy  
I know someday I will be strong again  
Forget what they're saying,  
It's to the heart-break station  
I'm gone  
Heart-break station, I'm gone (x3)  
(CHORUS)  
I fell outta love this time again  
Can't stand one more fight  
I'm too tired and crazy  
I know someday I will be strong again  
Forget what they're saying,  
Stay true to yourself  
Don't let nothin' phase you  
Is anyone out there to the heart-break station  
I'm gone
