Steady like a gun I am living a nightmare  
Married to my fucking disease  
Can't stop now wanna die in a car crash  
Maybe that's what I need

I can't stop a deadlock  
I won't let ya pray for me  
I'm not gonna stay long  
My head is turning

Fallout!  
Left me without love!  
Tear us apart my heart!  
Burning inside of me!

Oh yeah... HEY!

Terrified of none I am sleeping with hardware  
Fearless and fucking mean  
Out of control stone cold and reckless  
Looking for my enemies

I can't stop a deadlock  
I won't let ya pray for me  
I'm not gonna stay long  
My head is turning

Fallout!  
Left me without love!  
Tear us apart my heart!  
Burning inside of me!

Fallout!  
You're leaving me undone!  
Maybe I'll use my gun!  
It's right here beside me!

Ahhhhh!

Running from the law always looking behind me  
They better get ready for me  
Wanna kill them all and put an end to this long chase

I won't stop till I succeed  
The lawyers,  
The fraud  
The system is flawed  
It's time to take it to the streets  
I won't take the fall  
I will leave them with no trace for the naked eye to see

I can't stop a deadlock  
I won't let ya pray for me  
I'm not gonna stay long  
My head is turning

Fallout!  
Left me without love!  
Tear us apart my heart!  
Burning inside of me!

Fallout!  
You're leaving me undone!  
Maybe I'll use my gun!  
It's right here beside me!  
It's right here beside me!  
Burning inside of me!

Ahhhhhh!  
Fallout!
