I was down on my luck just gotta leave my place
Saw you out my window thought this girl is hot
Oh baby I could tell that you're in tune with yourself
On the boulevard
Ooh yea

Double up on my groomin' to give your what I got
When we get our groove on the best on the spot
We could paint the town and feel the rhythm of love
Taping in the streets
Ooh yea

Get back to what it is that drives you
You just can't fight off the men and now
You wanna tell me there's so much left for you out
there
When I'm in love with you

Can we make it to the ocean and get wet with
ourselves?
Listen to the movement and dance on the dock
I'm crazy for you baby and that look on your face
Well it's killing me
Ooh yea

Get back to what it is that drives you
You just can't fight off the men and now
You wanna tell me there's so much left for you out
there
When I'm in love with you

Baby's got the movin' it's always hot
Sittin' in the park and feelin' it rock
Won't you stay with me and feel the love
Mama play with me and

Fella's on the move lookin' for bucks
Generate the groove makin' it work
C'mon sway with me and feel the love
Every time you move I'm alive

Get back to what it is that drives you

You just can't fight off the men and now
You wanna tell me there's so much left for you out
there
When I'm in love with you

Get back to what it is that drives you
You just can't fight off the men and now
You wanna tell me there's so much left for you out
there
When I'm in love with you
