Drink down the water, one cup is all you get
Night time is calling, the sun is finally set
We take for granted all the trouble that we're in
Hard times are coming and we don't know how to win
So where do I begin?

We can find it, we can find a way
If your mind is open then there's no time left to waste
On and on and standing strong, we made a choice
today
To never judge another and relieve us from our pain
It's the king of kings

Too many problems and we're turning back again
Fight for the power and there's nothing left to give
All that is wanted is a future for our kids
And leaders to follow and change the way we live
So where do I begin?

We can find it, we can find a way
If your mind is open then there's no time left to waste
On and on and standing strong, we made a choice
today
To never judge another and relieve us from our pain
It's the king of kings

Love is all we need
Everybody free
Give it up for the king of kings

Love is all we need
Everybody free
Give it up for the king of kings
King of kings

We can find it, we can find a way
If your mind is open then there's no time left to waste
On and on and standing strong, we made a choice
today
To never judge another and relieve us from our pain
It's the king of kings
