Talk to me tonight
Is everything alright
Help me understand you

You go out with your friends
And talk to other men
And our love life is a wasteland

And with the change and new test of faith
To help us through tomorrow
A condition of the love we made

'Cause things won't change without you
Forfeit the lies that maimed you
Wanna dance with the lines and change things
But I can't do it without you, you, you

You told me I'm the one
And now you're out of love
In your eyes it's hard to find you

If we could take some time
And cut out all the lies
I'd find a heart more stable

And with the change and new test of faith
To help us through tomorrow
A condition of the love we made

So take it easy girl
You're falling through the night
Your Monalisa eyes
Will comfort me the rest of my life

'Cause things won't change without you
Forfeit the lies that maimed you
Wanna dance with the lines and change things
But I can't do it without you

'Cause things won't change without you
Forfeit the lies that maimed you
Wanna dance with the lines and change things

But I can't do it without you

When love is in your life
I will never say goodbye
We stand alone tonight
Without you, without you

When love is in your life
I will never say goodbye
We stand alone tonight
Without you without you
You you without you, without you
