It must have taken a long, long time to make a woman
like you

Ooh baby, 'cause you're so, so fine

He took the stars from the sky, put the sparkle in your
eye

Baby, don't you know you're my only desire?

When I enter the room, I smell your perfume

The taste of your lips is like the nectar from the Gods

And the sunlight on your hair is just like spun gold

After God made you, he broke the mold

God made you for me, you're my dream come true

I don't want another woman, all I need is you

You're everything to me and my life's complete

I'm gonna worship and adore you, I'm gonna bow to
your feet

To describe how your body feels when you're next to
me

Like rockin' and rollin' on a stormy, stormy sea

You bring me up, oh, and then you take me down

Then you take me to Heaven and back down to the
ground

You're just like a rose blooming in the spring

You're everything a man could want, everything a man
could need

And at night I fall down on my knees

And thank God for sending an angel just to love me

God made you for me, you're my dream come true

I don't want another woman, all I need is you

You're everything to me and my life's complete

I'm gonna worship and adore you, I'm gonna bow to
your feet

Girl, let me touch you, make sure it's not a dream

If it is please don't awake me, it would be so, so mean

The thought of ever losing you is more than I could
bear

It just wouldn't be Heaven no more if you were not

there

God made you for me, you're my dream come true
I don't want another woman, all I need is you
You're everything to me and my life's complete
I'm gonna worship and adore you, I'm gonna bow to
your feet

God made you for me, you're my dream come true
And I don't want another woman, all I need is you
You're everything to me and my life's complete
I'm gonna worship and adore you, I'm gonna bow to
your feet

God made you for me, you're my dream come true
And I don't want another woman, all I need is you
You're everything to me and my life's complete
I'm gonna worship and adore you, I'm gonna bow to
your feet
