Down here where the river meets the sea
In the sticky heat I feel you open up to me
Love comes out of no where, baby, oh, just like a
hurricane

And it feels like rain
And it feels like rain

Lying underneath the stars right next to you
And I'm wondering who you are, and how do you do,
how do you do baby
Oh, the clouds roll in across the moon, and the wind
howls out your name

And it feels like rain
And it feels like rain

We never gonna make that bridge tonight, baby
Set across the Poncettrain
And it feels like rain
And it feels like rain

Batten down the hatches, baby leave your heart out on
your sleeve
Looks like we're in for stormy, stormy, stormy weather
That ain't no cause to leave
Just lie here in my arms let it wash away the pain

And it feels like rain
And it feels like rain

Baby can you feel it? Can you feel it?
It feels like rain
Baby can you feel it? Can you feel it?
Feel like rain

Let your love, let your love
Let your love come down
Oh, down on me
