The meetin' at the building will soon be over
Soon be over, soon be over
The meetin' at the building will soon be over all over
this world
All over this world my lord, all over this world

All over this world my lord, all over this world

The cryin' at the building will soon be over
Soon be over, soon be over
The cryin' at the building will soon be over all over this
world
All over this world my lord, all over this world
All over this world my lord, all over this world

The prayin' at the building will soon be over
Soon be over, soon be over
The prayin' at the building will soon be over all over this
world
All over this world my lord, all over this world
All over this world my lord, all over this world.

The moanin' at the building will soon be over
Soon be over, soon be over
The moanin' at the building will soon be over all over
this world
All over this world my lord, all over this world
All over this world my lord, all over this world

The meetin' at the building will soon be over
Soon be over, soon be over
The meetin' at the building will soon be over all over
this land.
