Waiting in the shadows; striking from behind  
An evil genius orchestrates a plague against mankind  
Rabid dogs surround him, so quick to emulate  
The voice from hell which casts it's spell  
And fans the flames of hate

Europe knelt before him, the Empire at his feet  
The innocent were cruelly spent in orgies of deceit  
Deeper now than ever, the depravity of men  
So those who think those days are gone had better  
think again

While a blemished flock plans an easy escape  
Tucked away safely in heaven  
The world awaits her violent fate  
Auschwitz '87

Unmindful of the millions who will die at his decree  
A velvet-tongued destroyer will arise from troubled  
seas  
His global plan is ready and waiting to begin  
The western guard lies sleeping while a Trojan horse  
slips in

So we render unto Caesar 'till we're rendered penniless  
Unmindful of the warnings, we increase our negligence  
Sharper now than ever, the sword of Damocles  
The noose grows ever tighter on a drugged democracy  
While a blemished flock plans an easy escape...

Unmindful of the torment of butchered, unborn sons  
Stabbing deep within the womb, the carnage has  
begun  
The fuse burns ever shorter, through phony, worthless  
talks  
Holocaust escaping from Pandora's lead-lined box

Saviour high in heaven, look down upon your bride  
Tiny men, yet precious gems for whom you bled and  
died  
Father high in heaven, we praise You through Your Son

Refine your people in the fire that surely has begun

While a blemished flock plans an easy escape

Tucked away safely in heaven

The world awaits her violent fate
