Hello sunshine, it's been too long since I
Felt your beautiful warmth upon my face
And how much have I missed
'Cause I've been focused on everything wrong

This road just felt so long
I forgot to lift my head to see you

Oh my lovely, shining for me
Let my eyes see all the beauty
Ohh, ohh

Hello sunshine, since the moment that I
Felt your beautiful warmth I knew that I'd do
Anything to keep this feeling of you
My heart comes alive

Oh, who could add a day
To the life by drowning every dark sky

Oh my lovely, shining for me
Let my eyes see all the beauty
Ohh, ohh

Fill my dark skies
Make me see the light, life is fine
So bring in the sunshine
Ohh, ohh

Let in the, let in the sunshine
Whoa, oh, oh, let in the sunshine
Let in the, let in the sunshine
Whoa, oh, oh, let in the sunshine
