Rise up again  
Shake off the shadows  
Unlock the doors  
And let hope live once more  
'Cause up from the ashes  
A fire is woken  
'Cause those who were broken  
Are becoming the chosen

Chorus:

So lift up your eyes  
'Cause we're not forgotten  
And hope will lead us on

Our hearts come alive  
With every moment  
Become the flame  
That shows us the way

So sing out your freedom  
Sing it out loud  
'Cause though we are broken  
We're becoming the chosen

Chorus:

So lift up your eyes  
'Cause we're not forgotten  
And hope will lead us on

Oh we pray for the dawn  
And we reach for the morning  
And hope will lead us on

Oh the day will come  
As we press on  
When the battles' won

Chorus:

So lift up your eyes  
'Cause we're not forgotten  
And hope will lead us on

So lift up your eyes  
'Cause we're not forgotten  
And hope will lead us on

Oh we pray for the dawn  
And we reach for the morning  
And hope will lead us on  
And hope will lead us on  
And hope will lead us on
