Broken heart, one more time
Pick yourself up, why even cry
Broken pieces in your hands
Wonder how you'll make it whole

You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart of mine, of mine

Someone said a broken heart
Would sting at first then make you stronger
You wonder why this pain remains
Were hearts made whole just to break

You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart of mine, of mine

Creator only you take brokenness
And create it into beauty once again

You know, you pray, this can't be the way
You cry, you say, something's gotta change

You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart
Please mend this porcelain heart of mine, of mine

Creator mend this heart
