Where would we be today if no man ever had to
strength to believe
If no man had a vision further than eyes could see
They are the ones who paved the way
To show you how you have been made for more

Chorus:

This is your day don't let them take it away yeah, yeah
This is your day don't let them take it take it
This is your day don't let them get in the way
This is your day so come on take it take you day

This world distracts you lies to you and hopes to keep
you from your call
But don't be fooled 'cause don't you see that you can
stand up to it all
You're unashamed you're unafraid to
Give up you life to serve the one who's called you

Chorus:

This is your day don't let them take it away yeah, yeah
This is your day don't let them take it take it
This is your day don't let them get in the way
This is your day so come on take it take you day

Chorus:

This is your day don't let them take it away yeah, yeah
This is your day don't let them take it take it
This is your day don't let them get in the way
This is your day so come on take it take you day
