Thoughts of You
And how You've changed me, fill my mind
Without You where would I be?

So even though I've tried to express my thanks
It never comes out how I hoped
I want to say so much more
So with these simple words, I'll try

I love You
My heart is Yours, only Yours
I long to give You all of me
My everything, my everything

God, I never could repay You
You gave everything
Without You where would I be?

You still loved me even when I
Pushed You away
You stood there and waited
Till the day I'd return

So even though I've tried to express my thanks
It never comes out
I want to say so much more
So with these simple words, I'll try

I love You
My heart is Yours, only Yours Jesus
I want to give You all of me

I love You, I love You
My, my heart is Yours, only Yours
I long to give You all of me
My everything, my everything

Thoughts of You
And how You've changed me, fill my mind
