Visit "[You Led Me](#)" on MotoLyrics.com

Good morning
The night is over and gone
I thought once
This dark would last for so long

Feel the sunlight
On my face
You have brought me
Through this place

Jesus, Jesus, You found me
Through the long night
You led me, You set me free

Do You see
Just what You've done in my life?
You gave me
More than I hoped, for now I

Feel Your sunlight
On my face
You have brought me
Through this place

Jesus, Jesus, You found me
Through the long night
You led me, You set me free

Feel Your sunlight
On my face
You have brought me
Through this place

Jesus, Jesus, You found me
Through the long night
You led me, You set me free

Good morning
The night is over and gone
