Grind hard far is today  
Yeah shine hard far is to pay go  
Ball hard as far as they know  
As far as they know

She say why you dog your hair 'cause it's not allowed  
Get it have no life so it has to die  
I'm the man hatter your favorite actress bad cracker  
I know black hackers and financial fat duckers  
But still I'm the fat packer who knows trappers  
Ain't got packers in eleven mad packers  
There will be your life with the permanent tempo  
P\*\*sy is my teacher I'm an info for the info straight  
from my mental  
I drop pictures upon my tempo shoppy pay not pencil  
I'm sorry now what I meant, now why I love the things I  
so oriental  
I'll take the golden diamonds dipped em all around my  
dental  
'Cause I like it bitch, if you need that then I guess  
you're psychic, shit  
All the picky cube and chain right there's a bitch  
You are out of your statue watch what you ask for  
Niggas you cannot break me crack, me a fracture  
A scratch out of your zone tightening your corset  
Come nigga saw, tuxedo sure said what the boe tie  
You know why, of course I am so hot  
All creativity I'm comparable to no guy  
Your girls says oh hi look at the staring cube  
You jump off the bridge I'm still holding your parachute  
You're fly, right?

Hook:  
Grind hard far is today

Ball hard as far as they know  
As far as they know oh  
Grind hard far is today  
Yeah shine hard far is to pay go  
Ball hard as far as they know  
As far as they know

My intangibility mixtin with my agility  
Seems to be the reason why most these niggas ain't  
feelin me  
But the fragility mixtin with the virginity is like  
The main reason why me in the manasili see  
Simmy seems the most venomous spit it in the  
premecies  
Was crashed the mission to call you my...  
I'm a sinner, you can find me where are the sinners is  
use the beginner  
I'm a section you are virginicies and see  
Before you judge and get the talking you're talking just  
remember  
You the defender so nigga you gonna have to  
surrender  
'Cause call me the number one contain the hell  
And all the way from counting in my chain from Virginia  
My birthday in September so she limbo  
And right before I chop it down I'll be screaming our  
timbo  
I'm the abominable biological diabolical  
Take a look in my follow if you're not frighten
