(Ira and Charlie Louvin)

When burdens seem to overcome there's a higher
power
Whose faithful and refuses none there's a higher
power
Then why ask men to help you through there's a higher
power,
They're helpless pilgrims just like you there's a higher
power

Let's sing it shout it walk it talk it
There's a higher power
Lay down your soul 'cause jesus bought it.
There's a higher power

Amen amen there's a higher power
Amen amen there's a higher power

Those men have built these mighty guns
They've built these automobiles that run
But brothers and sisters mark this down
They can't build you no heavenly crown

Go tell them people lost in sin. there's a higher power,
They need not fear the works of men. there's a higher
power
Believe in him who rest on high. there's a higher power
Unless they do they'll surely die. there's a higher power

Let's sing it shout it walk it talk it
There's a higher power
Lay down your soul 'cause jesus bought it.
There's a higher power
