Come back, baby  
Baby, won't you come back  
Come back, baby, to me?  
Now I know why all sad hearts cry  
Baby, baby, come to me

Well, I cried all night  
Ever since you left me  
Nothing has gone right  
Poor lonely, oh, me

I say come back, baby  
Baby, won't you come back  
Come back, baby, to me?  
Now you know I love you so  
Baby, baby, come to me

When you left me all alone  
To sing the blues  
I waited by the phone  
To get good news

That you would come back, baby  
Baby, won't you come back  
Come back, baby, to me?  
Now you know I love you so  
Baby, baby, come to me

Oh, come back, baby, to me  
Come back, baby, to me  
Oh, baby, baby, come to me  
Come back, baby, to me
